

Hurricane Safety Guide for Workers

Stay Safe – Be Prepared

1 Know the Plan:

- Understand your workplace's evacuation plan.
- Know the chain of command and your emergency role.
- Be aware of evacuation routes and exits.

2 Stay Informed:

- Learn the difference between a hurricane watch (possible storm) and warning (storm expected in 24 hours).
- Follow local emergency alerts.

3 Be Equipped:

- Ensure emergency supplies are available at work.
- Familiarize yourself with your emergency kit.

4 Get Trained:

- Participate in all emergency drills.
- Know evacuation procedures and your responsibilities.

Remember

Your safety is the priority. Stay prepared and informed.
